- UI/UX Design Lead and AI Research Developer at WSU's Digital Research and Transformation Hub (TIE), co-leading the AI Research & Development team. Played a key role in designing and developing the chatbot for Wichita State University. Currently leading the coding and design teams for a dashboard and chatbot project for the City of Wichita, collaborating with city officials through regular leadership and planning meetings to deliver impactful, user-focused solutions.

COMBINATION TECHNICIAN IN PLANT OPERATIONS

Haviland Broadband, Conway Spring, KS

April 2024 – June 2024

- This is a full-time job I am doing this summer. It is a full-time job. My main task is to maintain techs on the customer end, install a new fiber connection, and take out old copper internet.

TECH INTERN

Barclay College, Haviland, KS

August 2023 – December 2023

- Completed a tech internship at Barclay College during an Information and Network Technology program at Pratt Community College.
- Responsibilities included customer service, student and professor tech support, network management, and lab computer administration.

PRODUCTION ASSISTANT

Barclay College, Haviland, KS

August 2021 – April 2022

- Managed live production for chapel services, including digital soundboards, lighting, and streaming.
- Served as sound engineer for *Mary Poppins*, *Newsies*, *All Together Now*, and *The Show Goes Wrong*.
- Directed sound, lighting, and graphics for a concert at Barclay College.
- Skilled in Logic Pro, DaVinci Resolve, Adobe Premiere Pro, and Final Cut Pro for audio/video editing.
- Experienced with Adobe Lightroom and Photoshop for photo editing.
- Handled live broadcasts for basketball, volleyball, and soccer.

- Familiar with Yamaha CL3 soundboard, Dante audio networking, ETC lighting systems, OBS, and ProPresenter 7.

RELEVANT PROJECTS

AI ChatBot build

Mindshare.com

August 2024 – Ongoing

- I am developing a custom chatbot for the Mindshare.com website, aimed at enhancing customer service. This chatbot will be designed to handle inquiries related to the content and services offered by Mindshare. The project involves utilizing ChatGPT, along with training the model using a custom API to ensure the chatbot effectively understands and responds to customer questions with accurate and relevant information.

HomeLab

My HomeLab

August 2022 – Ongoing

- I maintain a small homelab where I experiment with various server operating systems, switch OS, and Linux distributions. Additionally, I work with Windows Server and diverse hardware setups. My homelab serves as a hands-on environment for practicing and enhancing my cybersecurity skills, allowing me to stay current with the latest developments in the field.
